PATHWAYS

Health care is one of the largest and fastest-growing industries in the United States, employing over 14 million workers in more than 200 careers. The explosion of technology in health care and an unprecedented aging population contribute to the national health care workforce shortage. Approximately 28 percent of all new jobs will be created in the health care industry through the year 2018, which translates to 3.2 million new health care positions nationwide. Check out the nine Pathways in Health Science Education.

Biotech Research and Development

- > Biotechnology

Health Informatics

- > Medical Office Administrative Assistant

Therapeutic Services

- > Dental

- > Emergency Medical Technician

- > Medical Assistant

- > Nursing

- > Pharmacy

- > Surgical Technician

- > Therapeutic Rehabilitation/Exercise
